The john kevin fit

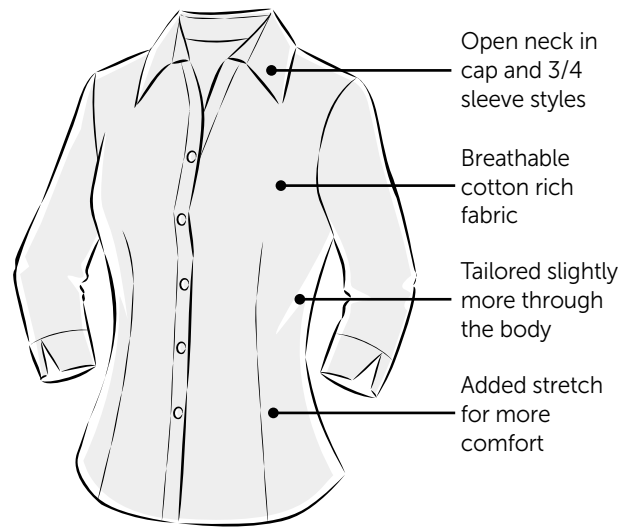

We recognise that each individual prefers different styles and fits. So now John Kevin has the perfect fit for everyone. Our semi-fitted styles have been designed with classic styling in mind and the final result is a contemporary shirt with a professional edge that compliments most body types. For the fashion conscious individual who prefers a more fitted garment we suggest trying our new stretch slim fits for a more modern look. Should you require more information than listed below consult further with your uniform specialist.

How to measure to order your correct size

To ensure you are satisfied with your John Kevin purchase, we advise that you follow this fitting guide when selecting your product. Women should measure the fullest part of the bust, adding allowance for comfort; measure your waist at the smallest part of the torso; and measure around the fullest part of the hip area for a comfortable fit. For men, measure the base of the neck, adding a centimetre for comfort; measure the fullest part of the upper torso as your chest guide; and to measure the sleeve, start at the centre point of the back of the neck, measure across to the top of the shoulder and down to the wrist.
